- B-11. Racism, Sexism, Sexual Orientation and Gender Identification Discrimination
The National Education Association believes in the equality of all individuals. Discrimination and stereotyping based on such factors as race, gender, sexual orientation, gender identification, disability, ethnicity, immigration status, occupation, and religion must be eliminated.

The Association also believes that these factors should not affect the legal rights and obligations of the partners in a legally recognized domestic partnership, civil union, or marriage in regard to matters involving the other partner, such as medical decisions, taxes, inheritance, adoption, and immigration.

- i. Offer positive and diverse role models in our society, including the recruitment, hiring, and promotion of diverse education employees in our public schools

[Note: No longer is this about tolerance – it is about promotion]

Such programs should include information on sexual abstinence, birth control and family planning, diversity of culture, diversity of sexual orientation and gender identification ...
